GPS watches

The running route is officially measured. The round is exactly 1100.0 meters. GPS watches have an inaccuracy of 10 meters per measuring point. Depending on the watch, each measurement time is between 1 and 60 seconds. Therefore, deviations of up to 50 meters per lap can occur. GPS watches carried by participants cannot therefore be recognized as a reference.

Start

The start is at the counting station. Please be there 10 minutes before the start. Start is punctually at 12 p.m. and midnight.

Before the run

Race number issue

At the registration, near the kitchen, see plans.

Please attach your race number so that it is always legible from the front. We want to count all your laps and not miss you just because the number couldn't be read.

Valuables

Can be stored in lockers at the cloakrooms.

Pasta Party

Included in the price for runners, pre-registration is required. Time: Friday evening from 6 p.m. to 9 p.m.

Changing and depositing the running gear

Tents are available for all runners without their own tent in the aid zone directly on the route for storing running gear and changing clothes during the run, see map.

During the run

Round control / counting station

You should contact your counter 10 minutes before the start.

Electronic chip timing (chips on the back of the race number) plus our personal counting station. Remaining meters are measured. Clearly visible time on digital clock.

Counting station

Please try to make eye contact with your counter during the run at the counting station. Always wear your bib number on the front so that it is clearly visible to the counter.

Breaks

If you are planning a longer break (toilet, changing clothes, etc.), please let your counter know in good time or immediately afterwards. In this way, misunderstandings can be avoided when counting laps.

100 km, 100 Miles, 200 km Points

The points are marked with a sign. Before reaching these points you get a blue flag from your counter.

Finish line / Remaining meters

Shortly before the end of the run you will receive a flag with your start number from your counter. If you hear the horn after 12/24 hours, please put your flag on the ground. We then measure the distance to your flag. These remaining meters are included in your mileage. You don't have to stay at your flag, you can go to the shower. The run ends 12/24 hours after the start at 12 noon.

Clothing

Don't forget to take rain gear and warm running gear with you. At night the temperature can drop to 0° Celsius. You can find forecasts at <https://www.mybasel.ch/wetter> or <https://www.meteoschweiz.admin.ch/>

Toilets

There are toilets at 4 locations along the running route, see route map. The two Toi Toi toilets are right on the route.
