

Sri Chinmoy Marathon-Swim Rapperswil–Zurich • 26 km

How the selection works

The race usually fills with all those who applied already a few times and never got the chance to participate. Those who already participated have to wait also, because swimmers who never had the chance to participate will be prioritised.

Race entry for swimmers is open from October 15th until November 15th. Swimmers with their own boat can also apply after November 15th if still places are available.

For swimmers with their own boat, the rule “first come, first serve” applies.

For swimmers without a boat we select like this:

1. Swimmers who never participated and were denied two or three times.
2. Swimmers already participated and were denied at least twice in the last 4 years.
3. Swimmers who never participated and were denied once.
4. Swimmers already participated and were denied once in the last 4 years.
5. If places are still available, we take swimmers applying for the first time.

Application forms which are not filled completely are not accepted and will not be taken into the above selection.

We also may exclude swimmers from the selection, if it is obvious (from the swimming speed and swimming background) that the swimmer or team will not be able to complete the swim safely and in time of the cut-offs.
